

# KZ715CAP-R

## Red Cap for Kilsen KZ715AS Series Sounder Bases

### General

---

Designed to be used with KZ715AS series base sounders, the KZ715CAP-R is a WHITE cap that allows these devices to be used in standalone mode, as normal room notification devices without an additional detector installed in the base. This reduces the number of costly products on the shelf and reduces the number of variations of notification SKUs in stock.

### Other Applications

---

As the KZ715CAP-R may be fitted to any Kilsen KZ7 series detector base, other applications include:

... protecting an installed Kilsen detector base when it is not in use, avoiding the need to remove the base from the ceiling and rewiring the detection loop as a result. This saves extensive installation and maintenance time and related cost.

... changing a base isolator into a stand-alone isolator, reducing the complexity of the variations of isolators that needs to be installed. As a consequence installations are simplified and the chance of cabling errors reduced.

### Details

---

- Easy to install
- Easy to clean
- Allows base sounders to be used as stand alone sounders

# KZ715CAP-R

## Red Cap for Kilsen KZ715AS Series Sounder Bases

### Technical specifications

---

#### General

---

Compatibility	KZ7 Series bases
---------------	------------------

---

#### Physical

---

Physical dimensions	97 x 25 mm (Ø x h)
---------------------	--------------------

---

Net weight	100 g
------------	-------

---

Colour	Red
--------	-----

---

Mounting position	Base
-------------------	------

---

Material	Plastic
----------	---------

---

#### Environmental

---

Vandal proof	No
--------------	----

---

Environment	Indoor
-------------	--------

---

#### Standards & regulation

---

Compliance	CE, REACH, RoHS 2, WEEE
------------	-------------------------
